

From the responsible :

*The Master of Management and International Business is a program that seeks excellence and expertise in the fields of management, finance and business. The objective goes beyond the training of consultants or business developers, we want our graduates to become future experts and business leaders in the North American area.*

*Through the courses taught during this Master's program, you will enhance your knowledge in the fields of economics, geopolitics, law and business in general. Specialized courses will also open the doors to consulting and digital business.*

*As the courses are delivered only in English and in Spanish, you must be perfectly bilingual in English and have a very strong level in Spanish.*

*In addition to your theoretical knowledge, to succeed you will need to develop and improve your social skills (attitude, leadership, charisma, public speaking, etc.), as well as a strong ability to think globally about the major issues of the business world.*

*Jérémie Aboiron, head of Master MCI - International Trade in north America, work-stydy program*
